

Homework 1
Software Security (502804-3)
Spring 2022
Due: Sunday February 27, 2020, 11:59 pm via Blackboard

10 points

Read the article “Stuxnet: What Has Changed?” by D. Denning, at [*Future Internet* 2012, 4, 672-687](#). (If the link does not work, use the following link to my GitHub web page).

<https://emadalsuwat.github.io/softwaresecurity/Stuxnet.pdf>

Answer the following questions:

- What are the main claims/contributions of the article? What supporting evidence/argument/etc. does the author provide? (i.e. write a short summary of the article) (1/2 page)
- Is the attack relevant to software security? (1/4 page)
